General Information

Balancing of GKN-CV shafts is not necessary.

The component sub-groups for replacement requirements are completely interchangable.

GKN-CV shafts are lubrication for life, further lubrication is not necessary, unless damaged.

When replacing CV joints and boot kits please adhere to the assembly instructions.

Replacement of CV joints and boot kits should only be made by qualified staff in suitable workshops.
When assembled improperly, the function of the CV shaft cannot be warranted.

Before fitting the CV shaft in the vehicle the shaft is to be checked with regard to its lubricant tightness.
No grease should come out of the clamped surfaces of the boot.
The correct type and quantity of grease is included in the repair kits.

Warranty is only valid when all original GKN parts are used, including boots and grease.

Do not dismantle CV joints.

Allgemeine Hinweise

GKN-Antriebswellen brauchen nicht ausgewuchtet zu werden.

Die Baugruppen für den Ersatzteilbedarf sind voll austauschbar.

GKN-Antriebswellen sind dauergeschmiert und bedürfen keiner Nachschmierung.

Beim Austausch von Gelenken sowie von Faltenbalgsätzen sind die entsprechenden Montageanweisungen zu beachten.

Der Austausch von Gelenken und Faltenbalgsätzen soll nur von geeigneten Werkstätten mit ausgebildeten Fachkräften vorgenommen werden.
Bei unsachgemäßem Zusammenbau ist die Funktion der Antriebswelle nicht mehr gewährleistet.

Vor dem Einbau der Antriebswelle in das Fahrzeug ist die Welle auf Fettdichtheit zu prüfen.
Hierbei darf kein Fett an den Spannflächen des Faltenbalges austreten.
Die jeweilige Fettqualität und Fettmenge ist den Gelenksätzen bzw. Faltenbalgsätzen beigefügt.

Garantie wird nur übernommen, wenn ausschließlich GKN-Originalteile verwendet werden, einschließlich Faltenbälge und Fett.

Gelenke nicht demontieren.

Installation Instructions for GKN Constant Velocity Driveshafts

The precondition for satisfactory function and long service life of our products is to install them in accordance with our instructions. Since these products are precision parts, we presume that the installer has the knowledge of a skilled mechanic. If this knowledge is missing, leave the work to a specialist.

General Instructions

Only use original GKN spare parts such as boots, retaining clips, washer plates, circlips, fasteners, grease. These have been developed in co-operation with the automotive industry. This means maximum safety in service. Please consider, a joint will only be as good as the associated components like boots, grease etc. In other words, the quality of boots, grease and other associated parts has extensive influence on the service durability of the joint. GKN itself is only responsible for warranty claims within one year after assembly date or 20 000 km or 12 500 miles if

a) our installation instructions have been properly followed and
b) original GKN spare parts have been assembled.

In case of a warranty claim within the time period stated above (or mileage), we kindly ask you to return the respective parts along with the filled-in warranty application which is available from your dealer. Instrucciones de Montaje para Transmisiones Homocinéticas GKN

El requisito previo para un funcionamiento satisfactorio y una larga duración de nuestros productos es su instalación siguiendo nuestras instrucciones. Como estos productos son piezas de precisión, suponemos que el instalador tendrá la experiencia de un mecánico experto. Si carece de esta experiencia, encargue el trabajo a un especialista.

Instrucciones Generales

Utilice solamente recambios originales GKN, por ejemplo fuelles, abrazaderas de retención, arandelas, anillos de seguridad, sujetadores, grasa. Estos elementos han sido desarrollados en colaboración con la Industria del Automóvil, lo que significa una seguridad máxima de funcionamiento. Tenga en consideración que una junta es sólo tan buena como lo sean los componentes que lleva asociados como fuelles, grasa etc. En otros palabras, la calidad de los manguitos, grasa y otras piezas correspondientes influye notablemente en la duración de la junta. La compañía GKN solamente se hace responsable de reclamaciones en el período de garantía de un año después de la fecha de montaje a 20 000 km (12 500 millas) si:

a) Se han seguido debidamente nuestras instrucciones de montaje y
b) Se han montado recambios originales GKN

En caso de reclamación contra garantía, dentro del período de tiempo arriba indicado (ó kilometraje), rogamos nos sean devueltas las piezas respectivas junto con la solicitud de garantía, debidamente cumplimentada, disponible en nuestro concesionario. El eje de transmision y, respectivamente, la junta, habrán de ser devueltos en el estado original en que se desmonten, es decir, sin limpiar y completos (la junta con el fuelle y las abrazaderas de retención) a GKN.

Rogamos utilice solamente herramientas profesionales para todas las operaciones. Las condiciones de la garantía pueden variar en cada país.

Istruzioni di montaggio per tutti i giunti GKN

Il presupposto per un buon funzionamento e durata dei nostri prodotti è un corretto montaggio secondo le nostre istruzioni. Poichè si tratta di particolari di precisione, è importante che il lavoro venga eseguito da installatori preparati. In mancanza di sufficienti nozioni, è indispensabile rivolgersi a personale specializzato.

Informazioni generali

Tutti i particolari – quali: la cuffia, la fascetta, le rondelle, guarnizioni di sicurezza, parti di fissaggio o grasso – devono essere solo pezzi originali GKN. Questi particolari sono stati sviluppati con la collaborazione dell'industria automobilistica e garantiscono la massima sicurezza. Si deve ricordare che la funzionalità del giunto dipende dalla cuffia, dal grasso ecc. In altre parole, le qualità della cuffia e del grasso influiscono notevolmente sulla durata del giunto. GKN riconosce la garanzia per il periodo di un anno, fino a 20.000 km., solo nei casi in cui:

a) siano state seguite le istruzioni di montaggio e
b) siano stati montati pezzi originali GKN.

In caso di contestazioni entro il periodo di garanzia, preghiamo di rispedire il materiale reclamato unitamente alla richiesta di riconoscimento della garanzia, debitamente compilata, disponibile presso il Vostro distributore.
Il semiasse, così come il giunto, dovranno essere inoltrati a GKN nello stato originale di smontaggio, ciò significa che devono essere completi di cuffia e fascetta e non dovranno essere puliti.

Per tutte le fasi di lavorazione si devono usare attrezzi specifici. Le condizioni di garanzia possono variare da paese a paese.

Inbouwvoorschriften voor GKN aandrijfassen

Voorwaarde voor een goede functie en levensduur van onze producten is de montage volgens onze richtlijnen. Aangezien het over precisiedelen gaat, is een goede kennis van monteurs noodzakelijk. Als deze kennis niet aanwezig is, moet de montage door een vakman gebeuren.

Algemene richtlijnen

Gebruik uitsluitend originele GKN vervangingsonderdelen zoals hoezen, hoesklemmen, borgringen, bevestigingsdelen en vet. Deze onderdelen zijn samen met de automobielindustrie ontwikkeld en garanderen u maximale veiligheid in gebruik. Bedenk dat de homokineet alleen goed functioneert, als de bijbehorende delen zoals hoes, vet, enz. van gelijwaardige kwaliteit. Met andere woorden: de kwaliteit van de hoes en het vet beinvloeden in hoge mate de levensduur van de homokineet. GKN is alleen aansprakelijk voor garantieclaims binnen één jaar, respectievelijk 20.000 km indien:

a) inbouw volgens onze voorschriften geschiedt, en
b) originele GKN onderdelen gebruikt worden.

In geval van een garantieclaim binnen één jaar, resp. 20.000 km, verzoeken wij u ons de gereclameerde onderdelen en een volledig ingevuld garantie-aanvraagformulier, die bij uw leverancier beschikbaar is, terug te zenden. De aandrijfas, resp. de homokineet met hoes en hoesklemmen moeten worden teruggezonden aan GKN in de oorspronkelijke uitgebouwde toestand, d.w.z. ongereinigd en compleet.

Gebruik bij alle werkzaamheden alleen het juiste gereedschap. De garantievoorwaarden kunnen van land tot land verschillen.
