DEFINITIONS / DEFINICIONES / DEFINITIONS

CKP sensor	Crankshaft position sensor	Sensor de posición de cigüeñal	Capteur de position de vilebrequin
CMP sensor	Camshaft sensor	Sensor de posición de árbol de levas	Capteur de position d'arbre à cames
Coolant temperature sensor	Coolant temperature sensor	Sensor de temp. del líquido refrigerante	Capteur temp. du liquide refroidissement
DPF sensor	Exhaust gas pressure sensor	Sensor presión gas de escape	Capteur de pression gaz d'échappement
Exterior temperature sensor	Exterior temperature sensor	Sensor de temperatura exterior	Capteur de température extérieure
Flywheel sensor	Flywheel sensor	Sensor volante motor	Capteur volante moteur
Fuel temperature sensor	Fuel temperature sensor	Sensor de temperatura combustible	Capteur de température de carburant
Ignition sensor	Ignition sensor	Sensor de encendido	Capteur d'allumage
Intake air temperature sensor	Intake air temperature sensor	Sensor de temp. del aire de admisión	Capteur température de l'air d'admission
Interior temperature sensor	Interior temperature sensor	Sensor de temperatura interior	Capteur de température intérieure
Knock sensor	Knock sensor	Sensor de detonaciones	Capteur de cliquetis
MAP sensor	Manifold Absolute Pressure	Sensor de presión absoluta	Capteur de pression
Oil temperature sensor	Oil temperature sensor	Sensor de temperatura del aceite	Capteur de température d'huile
RPM sensor	RPM sensor, engine management	Sensor de revoluciones, control del motor	Capteur régime, commande du moteur
RPM sensor automatic gear	RPM sensor automatic gearbox	Sensor de revoluciones, caja automática	Capteur de régime, automatique
RPM sensor transmission	RPM sensor transmission	Sensor de revoluciones, caja de cambios	Capteur de régime, boîte de vitesses
RPM sensor, gear	RPM sensor, gear	Sensor de revoluciones	Capteur de revoluciones
Speed sensor	Speed sensor	Sensor de velocidad	Capteur de vitesse
Temperature sensor	Temperature sensor	Sensor de temperatura	Capteur de température
Water temperature sensor	Water temperature sensor	Sensor de temperatura del agua	Capteur de température de l'eau

INFORMATION / INFORMACIÓN / INFORMATION

This Vehicle Application Catalog contains the data from vehicles, engines and Industrial Vehicles for the European market from year of manufacture 1985 up to and including the year 2013.

On some engines, two or more References the same product can be fitted, indicate may have one or more at the same time. Example: Volkswagen fits two oil temperature sensor in the same engine, but it's possible that it may have various, we see Applications. To identify the correct switch by matching the colour of plastic, to that of the unit you are replacing. Example: one to be fitted on the upper part of the engine block (cylinder head) and another on the coolant temperature the engine mounting.

Some components for Tractors and Heavy Duty Vehicles are not listed in the Vehicle Application, but can be found in the Cross Reference List and/or Illustrated section of the Catalogue.

Los datos recogidos en este Catálogo de Aplicaciones, para vehículos, motores y vehículo industrial del mercado Europeo, abarcan los años de fabricación entre 1985 y 2013, inclusive.

Algunos motores pueden montar dos o más Referencias del mismo producto, independientemente cualquiera de ellas o varias a la vez. Por ejemplo, Volkswagen monta dos sensores de temperatura en el mismo motor, pero vemos que puede llevar varios, como indicamos en las Aplicaciones. La identificación se realiza a través del color del conector, mismo color, misma ubicación de montaje. Por ejemplo, uno va situado en la zona alta del bloque motor (culata) y el otro en la zona de refrigeración del compartimento motor.

En el apartado de Aplicaciones por vehículos no aparecen todos los productos **FAE** fabricados para Tractores y Vehículos Industriales, pueden ser consultados en el Cruce de referencias y/o en la Parte Ilustrada.

Le present Catalogue Applications mentionne les données spécifiques de véhicules, moteurs et Véhicules Industrielles pour le marché européen depuis l'année de fabrication 1985 jusqu'au millésime 2013 inclus.

Certains moteurs sont équipés par deux ou plusieurs Références dans la même producte, indépendamment l'une ou plusieurs de ces Références.

Exemple: Volkswagen est équipé avec deux capteurs de température dans la même moteur, mais peut avoir incorporé plusieurs, voir Applications pour Véhicules. L'identification est faite grâce à la couleur de la partie en plastique. Exemple: un est montée sur la partie haute du moteur (culasse) et l'autre sur l'ensemble du liquide de Refroidissement du compartiment moteur.

Certains composants pour Tracteurs et Véhicules Industriels ne sont pas inclus dans les Applications pour Véhicules, mais sont repérés dans le Tableau des Equivalences et/ou partie illustrée du Catalogue.

G.B.

In this Catalog have been considered the vehicles with:

- Left Hand Drive (L.H.D.)
- Manual Gear, 5 speed
- Without Air Conditioning
- Without Check Control
- Without Cruise Control
- Without ABS

As the Standard vehicle (generic).

The rest of vehicles with other features (criteria) are treated in a specific way in the information column.

E

En este Catálogo se han considerado los vehículos con:

- Conducción a la izquierda (L.H.D.)
- Cambio Manual, 5 velocidades
- Sin Aire Acondicionado
- Sin Check Control
- Sin Cruise Control
- Sin ABS

Como el vehículo Standard (genérico).

El resto de vehículos con otras características (criterios) se tratan de forma específica en la columna de información.

F

Dans ce Catalogue sont considérés les véhicules avec:

- Conduction à gauche (L.H.D.)
- Avec boîte de vitesses manuelle, 5 vitesses
- Sans Air Conditionné/Climatisation
- Sans Tableau de Contrôle
- Sans Vitesse de Croisière
- Sans Antiblocage (ABS)

Comme le véhicule Standard (générique).

Le reste des véhicules avec d'autres caractéristiques (critères) sont abordés d'une façon spécifique dans la colonne d'information.
