## Unsere Produkte Our Products

### HEPU® Wasserpumpen – Die sichere Entscheidung

Wenn ein Motor über Jahre hinweg einwandfrei arbeitet, verdankt er dies zu einem wesentlichen Teil der Wasserpumpe. Denn ein hoher Wirkungsgrad und bestmögliche Betriebsbedingungen bestehen für den Motor nur bei optimalen Temperaturen. Werden diese nicht erreicht, leiden die Komponenten und damit der gesamte Motor. Deshalb geben wir Ihnen mit HEPU® Wasserpumpen die Sicherheit, eine höchstmögliche Motor-Lebensdauer zu erzielen.

### HEPU® Water pumps - A safe decision

When an engine works perfectly for many years, it owes much to the water pump. An engine can only achieve a high degree of efficiency and optimal operating conditions if it is maintained at optimal temperatures. If this is not the case, the components suffer, and with them the entire engine. The high quality of our HEPU® water pumps provide you with the peace of mind of enjoying the longest possible service life from your engine.

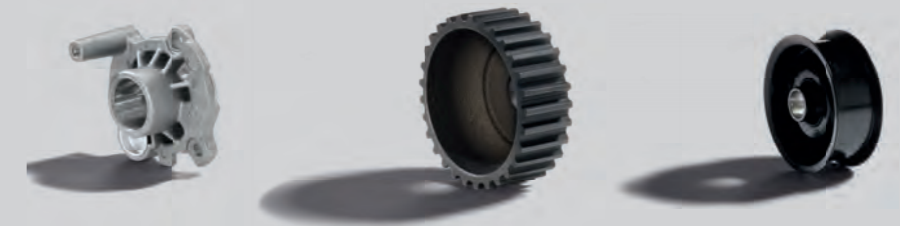

### Herausragender Kühlmitteldurchsatz und maximaler Wirkungsgrad

HEPU® Wasserpumpen bieten einen herausragenden Kühlmitteldurchsatz nicht nur bei normalen Fahrbedingungen sondern auch bei stehendem Fahrzeug und hohen Geschwindigkeiten. Diese überzeugende Hydraulikleistung ist durch eine zuverlässige Dichtungstechnik, Korrosionsbeständigkeit, Kavitationsresistenz und die Verwendung hochwertiger Bauteile gewährleistet. HEPU® Wasserpumpen erreichen mit maximaler Druckbeständigkeit einen optimalen Wirkungsgrad. Auf diese Weise schützen HEPU® Wasserpumpen nicht nur vor Überhitzung sondern verbessern gleichzeitig den Kraftstoffverbrauch und reduzieren die Schadstoffemissionen.

### Excellent coolant flow through maximum efficiency

HEPU® water pumps offer an outstanding coolant flow rate whether in normal driving conditions, stationary or travelling at high speeds. This impressive hydraulic performance is guaranteed through reliable sealing technology, corrosion protection, cavitation resistance and the use of high quality components. HEPU® water pumps achieve optimal efficiency with maximum pressure resistance. This not only enables HEPU® water pumps to protect against over-heating, but at the same time improves fuel consumption and reduces pollutant emissions.

### Vielfalt und Innovation

Als attraktiver Partner für Kunden im Ersatzteilhandel bietet HEPU® die richtige Erfolgsstrategie mit einem bedarfsgerechten Produktprogramm für die Motorkühlung. Das umfangreiche Sortiment umfasst nahezu alle Wasserpumpen für europäische Fahrzeuge sowie ein breites Angebot für asiatische Pkw. ## Produktion & Qualität Production & Quality

Die massiven Lagereinheiten aus besonders gehärtetem Qualitätsstahl sind für höchste axiale und radiale Belastungen ausgelegt.

The massive bearing units with ball and roller spindle bearings are designed for the highest axial and radial stresses, ensuring service-free use even with long-term operation at high rotations.

Robuste Pumpengehäuse aus hochwertigem und speziell verdichtetem Aluminiumguss. Die präzise Bearbeitung garantiert eine perfekte Maßgenauigkeit und einfache Montage.

The strong pump housings consist almost exclusively of high quality cast aluminum. The precision machining ensures perfect dimensional accuracy and easy installation.

Die strömungsoptimierten und korrosionsbeständigen Flügelräder bestehen aus besonders widerstandsfähigen Materialien und sorgen für eine gleichmäßige und effiziente Motorkühlung.

Flow-optimised and corrosion-resistant impellers offer maximum coolant flow and efficiency, guaranteeing constant and efficient engine cooling.

Die robusten Riemenscheiben bestehen aus speziellem Sintermetall und sorgen für eine optimale Kraftübertragung vom Zahnriemen auf die Wasserpumpe.

The pulleys are made of sintered metal and ensure optimum power transfer from the timing belt to the water pump.

Neueste Dichtungsgenerationen mit Karbon-Keramik- oder SIC-Technologie erfüllen höchste Anforderungen und garantieren eine optimale Abdichtung und Langlebigkeit.

By using the most up to date superior SIC sealing technology with carbon and ceramic rings, all HEPU® water pumps are guaranteeing optimal leak tightness and longevity.

## Wasserpumpen-Kits Water Pump Kits

Die perfekte Lösung  
für Profis!  
The perfect solution  
for professionals!

### Die professionelle Lösung

Profis wissen es schon lange und gehen auf Nummer sicher, wenn sie beim Wechsel des Zahnriemens gleichzeitig auch die Spann- und Umlenkrollen sowie die Wasserpumpe austauschen. Mit den Wasserpumpen-Kits von HEPU<sup>®</sup> bieten wir Ihnen die sichere und wirtschaftliche Komplettlösung. Das garantiert schnelle und problemlose Reparaturen und damit auch zufriedene Kunden.

### The professional solution

Professionals know it for a long time and choose the safe way when replacing the timing belt: they change at the same time the tensioners and deflection pulleys as well as the water pump. With HEPU<sup>®</sup> water pump kits we offer this safe and economic complete solution. It guarantees quick repairs without problems, and consequently also satisfied customers.

### Qualität aus einer Hand

In vielen Motoren wird die Wasserpumpe vom Zahnriemen angetrieben. Für eine perfekte Funktion und die Sicherheit des ganzen Antriebssystems ist es unerlässlich, dass alle Komponenten perfekt aufeinander abgestimmt sind und optimal zusammenarbeiten. Die Qualität der Bauteile ist gerade bei Zahnriemen-Motoren besonders wichtig! Deshalb erfüllen alle Komponenten der HEPU<sup>®</sup> Wasserpumpen-Kits die hohen Anforderungen der Fahrzeughersteller. Neben der HEPU<sup>®</sup> Wasserpumpe sind darin enthalten Spann- und Umlenkrollen sowie Zahnriemen und Montagezubehör der führenden Erstausrüstungshersteller. HEPU<sup>®</sup> Wasserpumpen-Kits bieten Ihnen somit Markenqualität aus einer Hand!

### Quality from one source

In many motors the water pump is driven by the timing belt. To guarantee a perfect functioning and safety of the entire belt drive system it is important that all components harmonize perfectly and function optimally with each other. The quality of these parts is particularly important with engines with timing belt technology. For this reason all components of the HEPU<sup>®</sup> water pump kits meet the strict requirements of original equipment. Besides the water pump all HEPU<sup>®</sup> kits consist of tensioners and deflection pulleys as well as timing belts and mounting accessories manufactured by leading OE suppliers. In this way HEPU<sup>®</sup> water pump kits offer quality brands from one source.

### Wirtschaftlichkeit und Sicherheit

Auch wirtschaftlich ist es sinnvoll, alle Komponenten des Antriebssystems in einem Montageschritt zu erneuern. Für die Werkstatt bietet der Komplett-Austausch gleichzeitig einen zusätzlichen Schutz bei eventuellen Gewährleistungsansprüchen. Alle Bestandteile der Wasserpumpen-Kits sind optimal auf die Bedürfnisse der Werkstatt abgestimmt und der Verwaltungsaufwand wird erheblich vereinfacht: keine aufwendige Suche der Bauteile, nur eine Bestellposition, nur ein Lagerplatz, nur ein Ansprechpartner für alle Komponenten. Das spart Zeit und sorgt für eine effiziente Lagerhaltung.

### Economic usage and safety

For economic reasons it makes sense to replace all components of the belt drive system during the same repair work. Moreover for the workshop the complete exchange offers additional insurance against possible warranty claims. All parts in the HEPU<sup>®</sup> water pump kits are perfectly attuned to the workshop's requirements and administrative procedures are simplified: No extensive search for components, one part number only, one storage bin, only one contact person for all components. Thus you save time, and your inventory is that much more efficient.
